PREFACE

7.3.1

We are pleased to present to our students the copy of VOCABULARY WORK BOOK. It has been designed with the object of supplementing, strengthening and institutionalizing the long standing practice of taking Daily English Exercises in all classes. The Vocabulary work book contains more than 2500 English words selected from the subjects of study of the students. Students are expected to find meanings of ten words every day by referring to standard dictionary and memorize them along with their spellings. This exercise will help the students in gradually building the VOCABULARY which they need in understanding their own subjects of study.
