7.1.2 Policy document on green campus:

Our institution doesn't have such policy document, but we have launched certain activities which have been related to the green and clean Campus policy. These activities and programs are

1. To conduct **workshops and guest lectures**
2. It is our institution's tradition that we begin our programme by **watering plant ceremony.**
3. To make aware all the stakeholders of the education system about the danger of air pollution we undertake **no vehicle** day in campus on the 4th Saturday of every month.
4. To keep our environment green, clean, and healthy our institution promoted the activities like tree plantation – (various types of shrubs, medicinal plants, small plants of flowers).
5. Our institution always inspired the students to prepare the wallpapers on environmental issues.
6. The Institution inspired the students to avoid the use of plastic.

7.1.2 Activities to Make aware regarding clean and green campus:

7.1.2.(1) Online workshop on Climate Change 15/01/2022

Report of a one-day seminar on 'Climate Change'

One day seminar on the topic 'Climate Change' was organised by Psychology Department in D. D. Shinde Sarkar College under lead college scheme, D. R. K. college of commerce cluster on 15/01/2022. Mrs. Madhuri Shinde, President of Saraswati Shinde Education Society, Mr. Prathamesh Shinde, Representative of the Society, Mr. DN Desai, Principal of the College, all teachers, non-teaching staff and students were present.

Everyone participated via the online link. Ms. Vishwashree Patil welcomed everyone in the online webinar. Inaugural speech was given by Dr. Amita Kanegaonkar. The main concept of the seminar was explained by Dr. PR Pawar. This was followed by the Presidential Address by the Principal of the College, Shri DN Desai.

I SESSION

Mr. Deepak Devlapurkar (Chairman Janswasthya Dakshata Samiti) was the lecturer for the first session of this seminar. He gave speech on 'Importance of Environment'.

Mr. Devlapurkar said at the beginning of the lecture that he will try to present what he has learned from experience. Just as medicine is taken quickly after falling ill, it does not happen in the case of the environment. Environmental health being neglected. The population grew but the land did not. Air, water and sky are being polluted on a large scale. Rising temperatures will melt the ice and can drown the entire city. Global warming is causing extreme changes in the climate.

We can beautify the environment with even the smallest things. Instead of expecting the garbage to be picked up by the Gram Panchayat or the Municipal Corporation, it can be used to make compost at home. A cloth bag can be used instead of plastic. With proper vehicle speed control and proper maintenance, air pollution can be reduced.

Mr. Devlapurkar said that the Janswasthya Dakshata Samiti is working against spitting. "I am not a teacher or a professor but an active student," he said. He said that while he was producing fruits and vegetables at home, he could hear the melodious sound of birds.

Ms. Vishwashree Patil introduced the resource person. Prof. Vijay Patil gave vote of thanks.

II SESSION

Dr. Adinath Gade, Assistant Professor of Geography, DR Mane College was the lecturer for the second session of this seminar. He gave lecture on 'Causes and Effects of Climate Change'.

At the beginning of the session, he explained the relationship between psychology and weather. He explained that the Indian subcontinent has a monsoon climate. Climate depends on air, water vapor and dust. We get 51% of the total surface heat of the sun. Explaining the effect of greenhouse gases on the environment, he said that man has been increasing the greenhouse layer. Carbon dioxide has increased by 30% since the beginning of the Industrial Revolution in 1750. Between 1901 and 2020, India experienced 19 droughts and 13 wet droughts.

He also explained the situation of el nino and la nina effects. He explained the effects of climate change on geographical variability and external climate.

In this session Ms Vaishnavi Pavar introduced the resource person. Dr. R Y Mane gave vote of thanks.

III SESSION

The lecturer for the third session of the seminar was Mahesh Wagh, Assistant Professor, Department of Technology, Shivaji University, Kolhapur. He gave guidance on 'Energy Conservation for Sustainable Environment'.

He gave guidance on how to save energy. He gave guidance on how to save electricity while using various electrical appliances. He also gave guidance on how to generate electricity. He discussed how the supply of coal is declining and how we are going to face these problems in the near future. Saving electricity means saving electricity bill. He also spoke about energy audit. He gave information about the star rating in electrical equipment. Promoting the use of unconventional energy, he explained that energy can be used through solar heaters, solar community cookers, biogas.

In this session Ms. Vaishnavi Pavar introduced the resource person. Prof Kailash Ambulagekar gave vote of thanks.

7.1.2 (1) Guest Lectures:

1. Dr. (Mrs.) Vaishali Sarang delivered a lecture on 'Environmental issues and Chha. Shivaji Maharaja's thoughts on environment' on the occasion of Chha. Shivaji Maharaja's birth Anniversary.

2. World Sparrow Day 19th April, 2023 (Guest Lecture)

Report

1. Guest speaker: Mr. Prashant More

Topic: Importance of sparrows for the environmental balance.

Speakers: Mr. Amar Sankpal and Mr. Vishal Patil

2. Speaker: Mr. Prashant More

Topic: Importance of Recycling of Plastic.

On 19th April, 2023 Dept. of History, IQAC of D.D. Shinde Sarkar college with the collaboration of Vrukshapremi Welfare Organization, Kolhapur organized a programme on the occasion of 'World Sparrow Day'.

In the beginning of programme all guests were welcomed by Dr. R. G. Korbu by offering them a flower and Memento as a token of love and gratitude. The programme was started with watering the plant by the hands of dignitaries. The theme of the programme was introduced by Dr. Vaishali Sarang. The objective behind organizing this lecture was to make aware the people and students regarding conservation and protection of sparrows, which plays a vital role in the environmental balance.

The guest speakers Mr. Amar Sankpal and Mr. Vishal Patil discussed about the decreasing number of sparrows in India. They focused on the need to protect the sparrows and increase the number of sparrows. They spoke on 'The importance of sparrows for the environmental balance.

Mr. Prashant More spoke on the topic The importance of 'Recycling of Plastic'. He also highlighted the dangerous effects of plastics on environment and the need of recycling and reuse of plastic for the healthy environment.

Mrs. Aaradhya Kulkarni gave information about the easy techniques of glass painting and how to develop the skill of glass painting by using simple methods.

The lectures followed by fruitful interaction with the students. At the end Harshavardhan Rajput proposed vote of thanks.

7.1.2. 2) watering plant ceremony:

7.1.2 (3) No Vehicle Day: on 4th Saturday of Every Month:

7.1.2 (4) Clean and green campus

7.1.2 (5) Ban on Plastic- Notice displayed on college walls

7.1.2 The Institution has facilities and initiatives for:

1. **Alternate sources of energy and energy conservation measures:** Our Institution installed Solar energy plant- renewable energy to meet the increasing need of the day. Also, in our institution we preferred to use extensively LED bulbs.

Solar energy Plant

2. **Management of the various types of degradable and nondegradable waste:** Our institution has the mechanism to collect the dry and wet waste separately for the convenience of its recycle and reuse. After collecting such waste separately, we must hand over it to the municipal corporation for the further process.

3. Water conservation

Our institution paid attention to provide the clean and pure water to the students and faculty. So, institution installed a water purifier for the safety of all. We have 5 water tanks for the storage of water. Considering the convenience of students and staff the facility of distribution of water provided to the students on priority basis.

Our Institution Installed Rain water harvesting plant as due to the global warming and ground water scarcity in majority areas we found the lack of water resources. With the help of this plant, we want to overcome on the most vital issue I. e. ground water scarcity.

Water conservation Facilities

Rain water harvesting plant

4. **Green campus initiatives:** To keep our environment green, clean, and healthy our institution promoted the activities like tree plantation – (various types of shrubs, medicinal plants, small plants of flowers), Ban on plastic, no vehicle day, wallpapers on climate change etc.
